By clicking or navigating the site, you agree to allow our collection of information on and off Facebook through cookies. .. Techlicious LLC. .. For example, I use Google to log in to Inoreader. DeMille award Police make gruesome find after hearing "faint moaning" in hotel room 19-year-old college student missing in California, parents say Fire breaks out at Trump Tower in NYC Golden Globes 2018 highlights . That password works only for that site and doesn't give access to anything else. Another thing I like about signing in with Google: account-specific passwords. While most services require you to create an account from scratch, there are sites where you can log in with your social media credentials. This is quite handy if I am signing into a mobile app, for example. Turn on two-factor authentication wherever possible. Application security is hard—most developers are still just learning secure coding practices—as is securing the database effectively. PCMag Digital Group PC, PC Magazine and PC PCMag.com are among the federally registered trademarks of Ziff Davis, LLC and may not be used by third parties without explicit permission. Return to the Techlicious home page. Not when it's so easy to just ask for password reset emails. If you do not trust the website that appears on the Sign-in Request page, you should not confirm that you want to use your Google Account to sign in. Hands-On 4 hr ago This Asus Gadget Makes Three Monitors Look Like One Best Picks 5 hr ago Best Wi-Fi Routers 2018 News 5 hr ago Verizon Hikes Protection-Plan Premiums, Cuts Deductible. .. Does the site about you need to know your name, email address, physical address and phone number, or any other profile information? If it doesn't, don't hand it over. Leave him feedback below about how to improve it. Learn more, including about available controls: Cookies Policy.FacebookJoin or Log Into Facebook Email or PhonePasswordForgot account?Log InDo you want to join Facebook?Sign UpSign UpFacebook LoginChoose what you shareWatch the videoWith Facebook Login, you decide which apps can share with your friends. You should grant permission only if you trust the service. Do I trust the site to have taken the necessary steps to protect my phone number, mailing address, and my date of birth in its database? Honestly? For most companies, no, I don't. Skip to Main Content Techlicious - tech made simple Choose It Use It Deals Home Browse Topics Latest News Techlicious Top Picks Reviews How-Tos Deals Tech Made Simple Hot Topics: How to Fix Bluetooth Problems Quell Pain Relief ReviewBestTVs Under \$500 Complete Guide toFacebook Privacy Page Not Found Sorry, the page was not found. The A.V. .. Log in with your social account: Or, you can log in or sign up using Forbes. not found. So my Google account is as safe as I can make it, and I trust Google to take the necessary steps to keep my information secure. The important thing about signing on with my Google credentials: the site doesn't keep my password or other information. Stick WithWho You TrustNeil asked a very good question: ask yourself whether that site needs to know anything about you 5a02188284
